

The latest release of Enterprise Vault.cloud (EV.cloud) is scheduled¹ to roll out through the month of December.

This release introduces new self-service features, updates to Personal Archive, and expanded capabilities for external reviewers in Discovery Archive.

WHAT'S NEW

Discovery Archive	<ul style="list-style-type: none"> • Ability for a designated external reviewer to download an export created by a Discovery Administrator
Self-Service Capabilities	<ul style="list-style-type: none"> • Ability for approved system administrators to self-service ingest PST files to the archive² • Ability for approved system administrators to perform self-service re-assignment of messages from the unassigned legacy folder to user archives
Personal Archive	<ul style="list-style-type: none"> • Ability for Personal Archive users with delegate mailbox access to view the folder structure for delegate mailboxes³ • Ability to sync delegate and shared mailbox permissions in cross Active Directory (AD) setup • User Interface Enhancements for Mobile WebAccess for Personal Archive
Office 365	<ul style="list-style-type: none"> • Enhanced integration for hybrid customers using CloudLink + Office 365 Sync • Ability to sync retention by priority in Office 365 with Enterprise Vault.cloud • Support for Office 365 Modern Authentication based on username and password (<i>certificate-based support coming soon</i>)
Advanced Supervision	<ul style="list-style-type: none"> • Enhanced status marking workflow in review: automatically move to next item and optimized bulk item selection • Search Preview: double-click item to view in new window • Optimized selection of monitored employees from large list when creating a search • Additional permissions to prevent accepting search results, and prevent unwanted changes to dept properties & searches • Support for propagating hotwords from parent to child depts • UI timeout is configurable⁴

¹ All future release dates are tentative and are subject to change at the sole discretion of Veritas. While the features and enhancements listed above are scheduled for the dates mentioned, Veritas makes no assurances that any or all of these features and enhancements will be available at any time. Customers looking to purchase or renew their services with Veritas should do so solely based on the features of the service available at that time

² Currently customer self-ingestion is 1 GB/month

³ Requires purchase of Folder Sync

⁴ Upon request, not configurable via UI

Account Administration

- UserName and Administrative Role columns added in Account Management data grid and grid export
- Optimized Archive Usage report
- Veritas Advanced Supervision Account Mapping report added to Manage

Steps to Access Enterprise Vault.cloud Downloads

We have a new updated Downloads Center that makes finding your Veritas Product Downloads even easier! You can read about it here:

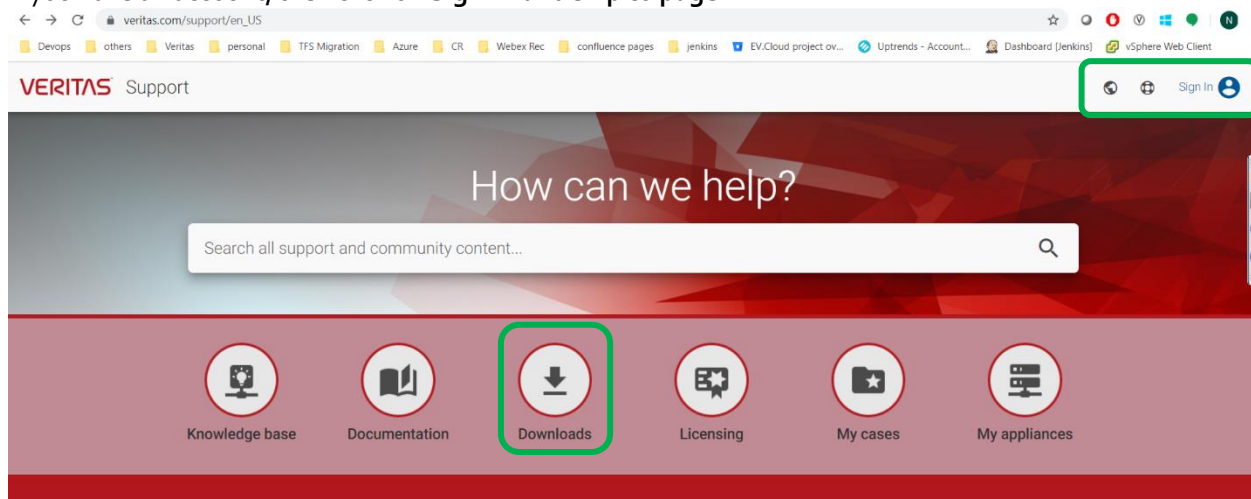

https://www.veritas.com/content/support/en_US/news/download_center

The new Downloads Center effectively combines the access to files from Veritas Entitlement Management System (VEMS), the Veritas Support website, or SORT into a one stop shopping experience. Now you can find, review, and download software releases for all Veritas products (full installs, full upgrades, patches, and other related files) in one place. Obtaining Veritas software is now as simple as going to Veritas Support and clicking on the Downloads icon from the homepage. It is that easy!

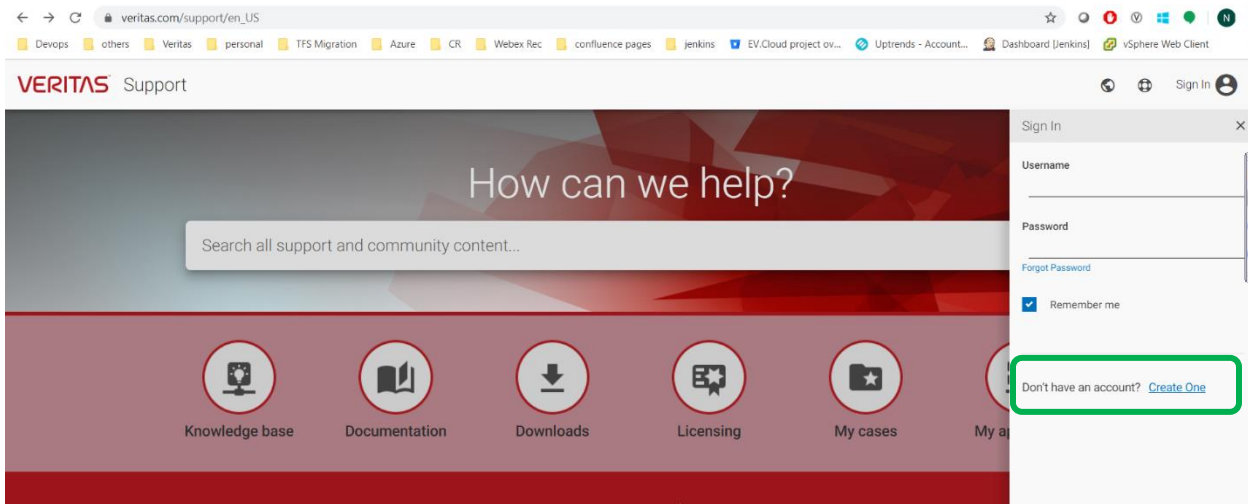

Please go to the Veritas Support link.
